

How to Know for Sure You Are Not Going to Hell

How To know for sure you're not going to HELL (Paul Washer)

Watch this shocking video for a big huge wake-up call. It's better to get woken up now it had to have some Eternal problem.

Avoiding pain is a great motivator so take advantage of it.

A lot of people can mock about Hell any hear a lot of that through the media, TV and movies. But little do people know is that Hell, Satan once you to think that Hell is a joke and no big deal or a fairy tale. Why is that? Because then therefore you won't do anything about it.

You see, all you have to do is nothing and you'll end up in Hell. What's nothing?

It's not a paying attention to the New Testament What God Says to do which is to believe in Him and to believe Him, therefore doing what He says. He's God Almighty, we need to do what He says and that should make sense to most people.

The only other problem is a lot of us sometimes don't know exactly what he said or we have blocked when he has said deep down or do to the are we picked up from this world we have confused ourselves on how to do what He says.

What does God say? He says to obey God the Son, the physical manifestation of God the Father: believe in Jesus and believe Jesus

doing what He says which thereby makes Him your Lord. If Jesus is your Lord then you are His and He will come for you after this life in the flesh. **Read the New Testament over and over many times, for the rest of your life in fact and do what it says.**

[Here is a link to the Bible, the New Testament, the Gospel of John](#)
(Many say it helps a lot of people starting with the Gospel of John.)

Satan and his workers know that all he needs to do is get you wrapped up in this life and super busy so you don't think about what happens after this life and you don't deal with it. and then if you happen to deal with it initially he tries to do the same while tricking you into false beliefs and turning against God and into disobeying Jesus commands.

Since your salvation is based on who your lord is: if you obey the ways of sin then Satan is your lord and he gets to keep you in Hell with him. If you obey Jesus then Jesus gets to keep you in Heaven with Him. That's the deal. Which way will you choose?

Of course Satan/Lucifer has many other tricks including other religions, the religion of science, and endless amounts of other statements and concepts that can trick you into believing this or that thing which will end up putting you in the pit.

But the thing is fortunately we have a sense of knowing what is right. It's through our conscious minds and our heart that we can be tricked. So instead of going with our conscious minds we can listen to our gut that knows what is right. but make sure you're not listening to your conscious mind or your heart in the process. It can be tricky.

If we go by our "gut", that sense of "knowing" knows the difference between right and wrong vs. Our emotions and random cerebral thoughts then we should do well. Because then we'll know what's from God and what's not, what's right and what's not.

These days we see people being tripped up through a combination of their conscious mind and their heart emotions into all sorts of error. Unfortunately it is error can have eternal consequences so understand that it is important that we be very careful in this life. But the good news is that after this is over and we passed the test which is obedient to God then we are set for trillions of years to come.

This is the period of the great cleanse out of all reality. So pay attention and don't be fooled. Obey the New Testament. but in order to obey the New Testament you're going to have to read it over and over and over again. And what you'll find out by actually taking the action to read the New Testament is that the Bible IS the Word of God, it's real, it's really powerful and it's living! Check out this video below
